

July 31-August 2, 2023 • Pomona, CA

The biennial California Adaptation Forum (CAF), hosted by CivicWell, serves as California's premier gathering of climate adaptation and resilience leaders from across the state. As a practitioner-focused event, CAF 2023 aims to bring together a multi-disciplinary audience of **800-1,000 leaders** for three days of learning, networking, and collaboration to advance adaptation action.

We invite you to partner with us to help shape a dynamic, solutions-oriented gathering!

By sponsoring the 2023 California Adaptation Forum, your agency, organization, or company can demonstrate leadership and commitment to creating a resilient and thriving California in the face of climate change while engaging with hundreds of climate leaders in unique and interactive ways.
